DIPLOMA IN CYBER & INFORMATION SECURITY

This programme is designed for people working in information and cyber security disciplines who need to show excellent skills and understanding in identifying and responding to cyber threats, hazards and risks.

As part of your programme, we will:

- Create you a tailored and individual learning plan
- Provide one-to-one mentoring from a dedicated member of the Bragd team
- Offer a blended learning approach which can include virtual or face-to-face workshops, guided learning and 24/7 access to our e-portfolio system
- Use trainers and assessors who are from the real world. They've been there, done that and got the t-shirt.

SCQF LEVEL 6

Directed learning, 1-2-1 virtual sessions and on-the-job tasks and activities develop real world skills - all supported by our tech' and cyber security mentors.

12 MONTHS

This qualification usually takes around 12 months to complete including certification by SQA.

12 MODULES

Twelve knowledge and performance modules specifically selected to meet each individual candidates needs and wants ensuring a fit-for-purpose programme for everyone.

Call Bragd now on 01383 630 444 or visit www.bragd.com for more information.

Bragd

The Art of Apprenticeships

This apprenticeship is ideal for those responsible for providing first line cyber security support and will also equip you with the critical skills needed to excel in a wide range of cyber security positions.

If you start with the SCQF level 6 programme, you will also have the option to progress onto the SCQF Level 8 programme if it is suitable for you to do so.

INFORMATION SECURITY

MORE INFORMATION

Using practical activities and simulations rather than lab-based practise, this programme will develop competence in areas such as security design, system architecture, security testing, governance and compliance, risk management and investigations & response.

YOU WILL COMPLETE

1. Twelve bite-sized modules teaching theory and practical applications through a combination of online learning and virtual or practical classroom workshops.
2. A work-focused project to give you the chance to apply what you have learnt straight into your real work context - with full support from our team of course
3. A portfolio showcasing how you've implemented and demonstrated the skills you've learnt in real work projects
4. Activities specially designed to achieve the five core skills needed to acquire funding in Scotland.

These core skills are working with others, problem solving, numeracy, communication and ICT.
