www.bragd.co.uk

IT SOLUTIONS TECHNICIAN

This apprenticeship will equip you with the critical skills needed to excel in a wide range of IT positions such as IT Solutions Technician, Service Analyst, Junior DevOps Professional and Applications Support Technician.

During your programme you will learn how to:

- Apply the concepts of networking including ISO and TCP/IP network stacks, ethernet LANs, IP addressing, DNS, DHCP and network routing,
- Use a range of DevOps methodologies across the solution lifecycle including agile and waterfall project management
- Use DevOps approaches including automation, continuous integration and monitoring
- Recognise emerging technologies including Internet of Things (IoT), artificial intelligence, automation and digital futures.

LEVEL 3

Combines online learning, virtual or classroom training and on-the-job experience to develop real world skills using innovative technology.

14 MONTHS

Taught and supported by experts followed by mentoring through to end-point assessment, completed in the last few months of the programme.

8 CORE MODULES

Eight easy to follow modules teaching theory and practical applications, tailored towards the individual needs of the candidate.

Call Bragd now on 01173 258 676 or visit www.bragd.co.uk for more information.

Bragd

The Art of Apprenticeships

On successful completion of your apprenticeship, you will also gain the following qualifications:

- Level 3 Certificate in Networking and Architecture.

You will have the option to apply for BCS membership and Professional RIT Tech Registration.

WHAT DOES 10:20:70 MEAN?

To give you the best possible apprenticeship experience, we use a 10:20:70 structure to plan your 'off-the-job' time as follows:

10% is made up of virtual or face-to-face workshops that provide an interactive 'kick start' to each topic

20% is made up of online study using our virtual learning platform as well as individual coaching and mentoring sessions and self directed learning

70% is made up of a range of 'knowledge-into-practice' work-based activities and projects, where we work with you to apply your new knowledge and skills in the real world.

This all prepares you for a smooth transition into your end point assessment. **What's not to like?**

IT SOLUTIONS TECHNICIAN

AS PART OF YOUR PROGRAMME, WE WILL ALSO:

Develop you holistically as a person - building your confidence and giving you crucial career skills that will enable you to perform at your best - every time. These can include emotional intelligence, project management, effective communication and stakeholder engagement.

Our success rates talk for themselves but talk is cheap. It's the doing that counts and we can do.
