SAFETY, HEALTH AND ENVIRONMENT TECHNICIAN

This programme will equip you with the vital skills needed to excel in a wide range of safety critical positions such as Health and Safety Manager, Health and Safety Supervisor, Operations Manager and SHEQ Advisor.

During your programme you will learn how to:

- Develop, implement and monitor a safety, health and environmental management system incorporating legislative requirements and best practice
- Undertake a planned approach to risk assessment including risk profiling, identification and implementation of control measures and monitoring of performance
- Conduct detailed incident and accident investigations including hazard containment, root cause analysis, report production and risk mitigation
- Develop a behaviour based safety programme and support the management team to create a safety focussed culture.

LEVEL 3

Combines online learning, virtual or classroom training and on-the-job experience to develop real world skills using innovative technology.

14 MONTHS

Followed by an end-point assessment in the last two to three months of the programme.

8 MODULES

Eight easy to follow modules teaching theory and practical applications, tailored towards the individual needs of the candidate.

Call Bragd now on 01173 258 676 or visit www.bragd.co.uk for more information.

Bragd

The Art of Apprenticeships

This programme is ideal for those who work with operations or management teams to advise and support on all health and safety related matters. You will also have the option to gain the following qualifications and memberships:

- CIEH Intermediate Certificate in Health and Safety
- IOSH Managing Safely
- Technical Member of IOSH (TechIOSH)
- Affiliate Membership of the Institute of Environmental Management and Assessment (IEMA)

WHAT DOES 10:20:70 MEAN?

To give you the best possible apprenticeship experience, we use a 10:20:70 structure to plan your 'off-the-job' time as follows:

10% is made up of virtual or face-to-face workshops that provide an interactive 'kick start' to each topic

20% is made up of online study using our virtual learning platform as well as individual coaching and mentoring sessions and self directed learning

70% is made up of a range of 'knowledge-into-practice' work-based activities and projects, where we work with you to apply your new knowledge and skills in the real world.

This all prepares you for a smooth transition into your end point assessment. **What's not to like?**

SAFETY, HEALTH & ENVIRONMENT TECHNICIAN

AS PART OF YOUR PROGRAMME, WE WILL ALSO:

Deliver a train the trainer 2 day course including effective communication and training techniques to support an organisations legal requirement to provide information, instruction, training and supervision (IIT&S)

Our success rates talk for themselves but talk is cheap. It's the doing that counts and we can do.

Contact the Bragd team by emailing hello@bragd.co.uk or by calling 01173 258 676 to find out more.
