# SUPPLY CHAIN PRACTITIONER

During your programme you will learn how to:

This programme will equip you with the critical skills needed to excel in a wide range of operational storage, logistics and supply chain positions such as Distribution Supervisor, Logistics Team Leader, Supply Chain Coordinator and Warehouse Manager.

- Apply a solutions-based approach to improving business processes using Kaizen and PDCA principles as part of a work based project
- Comfortably use multiple IT packages and systems relevant to your business in order to support decision making, manage demand, stock and inventory
- Deal effectively with ongoing challenges and provide advice on solutions, containment actions and recommended next steps
- Identify, manage and escalate operational and business risks to ensure effective product production and distribution.

## LEVEL 3

Combines online learning, virtual or classroom training and on-the-job experience to develop real world skills using innovative technology.

## 14 MONTHS

Followed by an end-point assessment in the last two to three months of the programme.

## 8 MODULES

Eight easy to follow modules teaching theory and practical applications, tailored towards the individual needs of the candidate.

Call Bragd now on 01173 258 676 or visit [www.bragd.co.uk](http://www.bragd.co.uk) for more information.

## SUPPLY CHAIN PRACTITIONER

## WHAT DOES 10:20:70 MEAN?

To give you the best possible apprenticeship experience, we use a 10:20:70 structure to plan your 'off-the-job' time as follows:

10% is made up of virtual or face-to-face workshops that provide an interactive 'kick start' to each topic

20% is made up of online study using our virtual learning platform as well as individual coaching and mentoring sessions and self directed learning

70% is made up of a range of 'knowledge-into-practice' work-based activities and projects, where we work with you to apply your new knowledge and skills in the real world.

This all prepares you for a smooth transition into your end point assessment. **What's not to like?**

## AS PART OF YOUR PROGRAMME, WE WILL ALSO:

Provide you with a range of value added certificates along with training and support in Microsoft 365, waterfall and agile project management; all supported by subject matter experts.

Our success rates talk for themselves but talk is cheap. It's the doing that counts and we can do.
